HEATING OIL SOLUTIONS!

MESSAGE FROM THE BROTHERS

WOW! What a winter, 3rd coldest on record and it seemed to last forever. Through it all, no matter how cold, what the conditions, we at Harrington Oil continued to provide excellent service to our customers. We value your business and show our appreciation by giving you, our customers, the best service possible.

Many of you have stopped to visit us at our new office at 752 Main Street, Holden and it's awesome being back in the building we grew up in learning the oil business from our father, Joe Harrington Sr. and the great team he had.

Harrington Oil continues to look for ways to improve the services that we offer. Your feedback is very important to us; we have heard many times that it would be nice if we had an in-house service department. To start this task we will be hiring a service technician this summer.

CHOOSE THE EASY WAY

We strongly recommend participating in the BUDGET PLAN where you spread your payments over a 10 to 12 month program and eliminate those big winter bills. The BUDGET PLAN works in coordination with AUTOMATIC Delivery in such a way that when you come due for a delivery we come out, fill your tank and you only need to continue to make your monthly payment.

With AUTOMATIC delivery we watch your tank for you and you never need to worry about costly and inconvenient run outs. You can also lock in for a great price all winter.

2014/2015 CAPPED/FIXED PRICING CONTRACTS

Again this year we are offering Capped/Fixed pricing contracts. The past couple of years our customers that chose these plans have saved a considerable amount of money. The Cap price program protects you both ways, if the price goes down you pay the lower price. With a fixed pricing contract, you are locked in at the same rate for the length of the contract or until the gallons you protect are used up. You have two payment options that accompany either a Budget or Prepay plan. Call the office at 508-829-0044 for more information on pricing contracts.

NEW TO OUR OFFICE

Harrington Oil is proud to announce a new addition to the Harrington Oil team. Shannon Bucci has joined our office staff to assist Deb in providing great customer service.

TUNE-UP TIME

With summer here, it's difficult to remember how hard your heating system worked to keep you warm this past winter. Now is a great time to schedule the annual tune-up and servicing. A tune-up of your heating system can avoid costly out of pocket repairs down the road. Contact our office and we will be glad to coordinate an appointment for you.

PAYMENTS

If making payments in person, our new office location is; 752 MAIN STREET, HOLDEN OR

By mail to: PO BOX 563, HOLDEN, MA 01520.

We gladly accept CASH, CHECK or CREDIT CARDS
Your Prompt payments are greatly appreciated.

For those late night hand delivered payments, Harrington Oil offers a secure locked mailbox, located outside our front door @ 752 Main Street.

Thank you!

OFFICE HOURS and ONLINE SERVICE

SUMMER hours from April through October are Monday through Friday 8:00 am to 4:30 pm. Should you need to contact us during non-business hours, please feel free to visit our website at www.harringtonoilinc.com. We offer a secure internet connection for ordering oil or emailing a staff member with questions on your account. Your emails will be responded to promptly on the next business day.

Phones are answered 24 hours a day by a Harrington Oil employee to handle any emergencies. Please phone during normal business hours with any questions on billing or account information.

If there is a phone problem with the regular office number, contact Patrick's cell phone at 508-523-8358.

TANK GUARD PROTECTION PROGRAM

Like everything else in today's world, the cost to replace a leaking oil tank has risen over the past few years. Today, replacing an oil tank for any reason (including disposal of the old tank) can easily cost \$2,000 or more, and this cost is something that is not usually covered by homeowners insurance.

The Tank Guard® program is a corrosive protection and warranty service for above ground oil tanks. When you enroll in the program you get the peace of mind of knowing your tank is covered and will be replaced if your oil tank leaks. Please phone our office for more information on this program.

OIL TANK SAFETY PAN

Harrington Oil is offering an under tank Safety Pan, which slips between the tank legs. If by any chance an oil leak develops at the tank or filter, the pan holds approximately 15 gallons, giving the owner enough time to deal with the situation before it becomes an environmental problem. Phone our office if interested in learning more at 508-829-0044.

SPREAD THE WORD AND BE REWARDED

Many of our customers come to us through a referral from a friend. This means a lot to us. Just have them mention your name when they call to sign up and we will credit your account \$50 towards your next delivery. It's a great way to reduce your oil balance and make your friends, family and neighbors happy at the same time. A referral is the greatest compliment we can get.

TESTIMONIAL

If you have a compliment or great experience to share, please feel free to share it on our website under "TESTIMONIALS" or "Google" Harrington Oil Inc.com and click [be the first to review](#) under our link. We appreciate your help in sharing your good words about Harrington Oil.

AIR CONDITIONING SERVICING

Want to ensure your central air conditioning system doesn't break down during the middle of a hot summer day? Invest in routine air conditioning maintenance. Air conditioners are just like cars – they need to be properly maintained in order to continue running efficiently. If you do not keep an A/C unit properly maintained or make necessary repairs, adjustments, replacements or cleaning, it can lead to your system not only costing you more in cooling costs because it does not operate as efficiently. Additionally lack of maintenance could lead to expensive air conditioning repairs, or worse, a complete system replacement.

To avoid the expense of having to replace your air conditioning unit before it's time, contact our office for an air conditioning tune-up. An air conditioner tune-up will ensure that your cooling system is operating as it should, efficiently and safely.
